

PEES Power Systems

2 photovoltaic panels for home use

Overview

If a solar professional determines that your roof is not suitable for solar, or you don't own your home, you can still benefit from solar energy. Community solar allows multiple people to benefit from a single, shared solar array that can be installed on- or off-site. If there are trees near your home that create excessive shade on your roof, rooftop panels may not be the most ideal option. Made with chemicals safer for human health and the environment.
