

## PEES Power Systems

# 60kWh Mobile Energy Storage Container Order for Community Use

## Overview

---

Integrated design with high power density, requiring minimal installation space and providing flexibility for various setups. Comprehensive safety features, including multi-level fire prevention and real-time battery monitoring to ensure operational reliability. The ECube 60AP 60kWh Air-Cooled Battery is designed for commercial and industrial energy storage, offering efficient temperature control for high-rate cycling. With built-in fire and gas safety detection and advanced power management, it ensures safe and reliable energy performance across. A containerized energy storage system (often referred to as BESS container or battery storage container) is a modular unit that houses lithium-ion batteries and related energy management components, all within a robust and portable shipping container. These systems are designed to store energy.

Zero Emissions □ Enjoy a clean environment no air pollution  
Silent Power □ Quiet operation □ 70 dB  
Plug and Play □ Modular design, plug and play  
Safe and Reliable □ Ensures safe, reliable power storage is paramount importance.  
Variable Usage scenario □ One storage system can cover all scenarios of power.

Supplier highlights: This supplier offers full customization, design customization, and sample customization with quality control and product certification, achieving a 100%.

Cat® Compact ESS, is a mobile battery energy storage system that supplements traditional mobile power solutions to reduce noise, enable deployment of renewable energy sources, and, under certain conditions, allow customers to operate their generator more efficiently. The product is green and environmentally friendly, low noise, zero pollution.
