

## PEES Power Systems

# Are photovoltaic panel brackets expensive

## Overview

---

On average, you can expect to pay anywhere from \$10 to \$50 per kit for standard, off-the-shelf brackets. These kits are typically made from basic materials and are suitable for small to medium-sized residential installations. The cost of solar panels brackets kits can vary significantly depending on several factors. If you're deciding between roof-mount, ground-mount, tracking, or even floating systems, understanding the cost breakdown for each is crucial. So what exactly is solar mounting?

It's the system of rails, clamps, and attachments that fixes your panels safely to a surface —. Let's cut through the solar jargon - when contractors quote \$25 to \$200 per square meter for photovoltaic panel brackets, they're not trying to confuse you.
