

## PEES Power Systems

# Are photovoltaic panels allowed in buildings

## Overview

---

Permits are required for the installation of all building-connected solar energy systems. Practices recommended in this Guidebook apply to. Solar, or photovoltaic (PV) panels as they're referred to in NFPA 1, Fire Code, are becoming more and more common on one- and two-family dwelling and townhouse roofs. These codes, which encompass structural, electrical, fire safety, and zoning regulations, provide a comprehensive framework for the proper design, installation, and. Permitting and inspection are required before a solar array is allowed to produce electricity on the grid. Generally, local governments require solar installers to obtain a permit for rooftop panels before they can be installed. Following the installation, a professional from the local government. The National Electrical Code (NEC), adopted throughout the United States and its territories, first included solar PV systems in 1984.
