# Are there any side effects of installing photovoltaic panels on the roof

## Overview

---

Let's clear the air — the overwhelming consensus among scientists and engineers is that solar panels are generally safe. While myths around solar panel radiation risk circulate online, there is no evidence proving that rooftop solar systems cause harm to people living underneath. It made me feel dizzy, nauseated, head-achy, and disoriented (with “brain fog”). Little do people know that solar energy systems can be dangerous to their health. While solar energy can be a great investment, there are several negative effects that can arise from their installation and use. For some, the answer is a resounding.
