# Asia-Pacific Energy Storage Container 125-foot Project Financing

## Overview

---

A recent ASEAN initiative demonstrates how PPP models can reduce capital expenditure by 35% while accelerating project timelines. Typical structure: Let's examine a hybrid funding model that delivered results: By Ganesh Padmanabhan, Head of Project Finance, Jern Siew, Executive Director, Project Finance (Australia), and Suvro Sarkar, Senior Vice President, Group Research (Energy Sector), DBS Bank. As Asia gears up for a shift to renewable energy, energy storage has come to the fore. But here's the catch - while demand surges, 68% of project developers cite funding accessibility as their primary challenge. While many CCUS projects are currently underway globally, most are focused on Enhanced Oil Recovery (EOR) and Enhanced Gas Recovery (EOG), primarily led by. Reduced "Hosting Capacity" for "Variable Energy Resources" (PV, Wind. technologies in terms of average. As traditional infrastructure limitations constrain growth patterns, modular energy storage emerges as a catalyst for rapid economic restructuring, fundamentally altering investment flows and manufacturing strategies throughout the Asia-Pacific corridor. "Both these forms of generation work perfectly in.
