

## PEES Power Systems

# Australia solar power generation and solar container prices

## Overview

---

The graphs below show average system prices (after STC rebates), based on 9,569 systems installed in the last 2 years. AEMO is an independent organisation that operates on a user-pays cost-recovery basis, with all operating costs recovered through fees paid by industry participants. Our ownership is shared between government and industry. The chart shows real-time data (5-minute) for each region including current. At SCS Australia, we create solar powered shipping containers that combine renewable energy technology with the strength and mobility of a shipping container. Solar prices increase as demand for commercial solar surges. The utility-scale sector generated 1,028.
