

## PEES Power Systems

# Brazil USP Uninterruptible Power Supply BESS Fees

## Overview

---

Lower battery prices and increases to intermittent power generation could boost battery energy storage systems (BESS) in Brazil, reaching roughly 7.2GW of installed capacity by 2040 or higher with new regulations, according to a study by Brazilian consulting firm Clean. Brasol, a company with strategic operations in energy transition and a stake in Siemens and BlackRock, announced the creation of a new division dedicated exclusively to BESS (Battery Energy Storage Systems) solutions. Will UCB offer 30 MW-plus battery energy storage systems in Brazil?

American company Powin wants UCB's local presence and Brazilian regulatory knowledge to offer 30 MW-plus. A crippling tax burden; an inability to bank energy arbitrage income; and uncertainty about grid fees, network ancillary payments, and solar-plus-storage eligibility could all affect a procurement exercise planned for June. From ESS News With Brazil's Ministry of Mines and Energy asking for. Brazilian UPS Market Adds More Than USD 10 Million (2024-2029), Catering to Growing Need for Uninterruptible Power Supply. The Brazilian Uninterruptible Power Supply (UPS) market is undergoing a metamorphosis unlike any other. BESS regulation tests the limits of tariff moderation and legal certainty.
