## Overview

---

The following is the list of the top 10 battery BMS IC companies in the world in 2025. Company overview TI is renowned for developing, manufacturing, and selling semiconductor and computer technology, and has manufacturing, design, or sales facilities in over 25 countries. The boom in battery management systems is due on the one hand to the increasing adoption of electric and hybrid vehicles and increasing urbanization, and on the other hand to the growing demand for sustainable energy storage. Functional safety is critical as lithium-Ion batteries pose a significant safety hazard when operated outside their safe operating area. BMS as the brain of the battery, monitors and manages the charging and. The forecasted growth of the global battery management system (BMS) market predicts a significant rise from USD 9. 0 billion by 2029, reflecting a robust compound annual growth rate (CAGR) of 19.
