

PEES Power Systems

Costa Rica container mobile house energy storage box

Overview

Our model off-grid container home is mounted on a chassis, with solar energy, water catchment, water storage, water purifier, above-ground septic tank, and satellite internet, can be yours for about \$57,000. It takes far less time and less hassle to build than a conventional home. These structures, crafted from repurposed shipping units, embrace the tropics in a way that traditional housing often cannot match. Picture a shipping. Luxury villa with multiple containers, premium finishes and unique architectural design. Minimalist design with clean lines, maximum space utilization and functionality. A variation on the 'Valencia' model above.
