

PEES Power Systems

Cyprus substation solar cabinet system

Overview

The planned installations include a 40MW, 80MWh system at the Athalassa substation in Nicosia, and 40MW, 160MWh systems at both the Anatoliko substation in Paphos and the Free Industrial Zone substation in Larnaca. The Electricity Authority of Cyprus (EAC) has issued a tender for construction and infrastructure works to install electricity storage systems at three substations in Nicosia, Larnaca, and Paphos, along with maintenance at other substations. The request was submitted after parliament passed a harmonisation bill submitted by the government. The island's unique position as a renewable energy hub creates specific demands: "A 2MWh storage cabinet can power 150 average Cypriot homes for 24 hours during grid outages.
