# Delivery time of 200kW integrated energy storage cabinet

## Overview

---

All equipment is pre-integrated into an IP-rated outdoor protective cabinet, ensuring ready deployment upon arrival and immediate power generation upon installation, significantly reducing project deployment cycles and substantially lowering construction and commissioning costs. This product is a 200kW/480kWh industrial and commercial integrated energy storage cabinet utilizing Lithium Iron Phosphate (LFP) battery cells. Charges and discharges power based on time-of-use pricing and peak consumption to flatten the energy load profile. Increases the charging capacity while avoiding overload and safety issues on existing grid infrastructure. Maintains. The C&I ESS Battery System is a standard solar energy storage system designed by BSLBATT with multiple capacity options of 200kWh / 215kWh / 225kWh / 245kWh to meet energy needs such as peak shifting, energy back-up, demand response, and increased PV ownership. Here's why they stand out: Optimize your energy use with.
