

## PEES Power Systems

# Distributed energy systems port-au-prince

## Overview

---

About one-quarter of the population in Haiti has access to electricity. The national power utility, Electricité d'Haïti (EdH), operates one power transmission and distribution grid that serves the Port-au-Prince metropolitan area, and a number of smaller mini-grids in other areas of. The Champs de Mars public square and recreational park in the Haitian capital Port au Prince will be alight at night and powered by a solar PV-energy storage system. Billed as Port au Prince's first PV power plant, the solar-energy storage system will also provide Wi-Fi connectivity across the park. Haiti faces significant challenges in generating and distributing energy reliably, and lack of access to affordable and reliable power significantly hinders investment and business development. The government is exploring various. Founded in 2007 by entrepreneur Rowolson Kuhn, Solengy Haiti S. The PV system exports significant energy to the grid but achieves the net-zero goal over an annual period.
