Doha new energy for solar site

Overview

QatarEnergy and TotalEnergies have signed an agreement to develop the Dukhan Solar Project, a landmark 1.6 GW initiative that will more than double Qatar's solar capacity by 2029. Located 80 km west of Qatar's capital, Doha, the Al Kharsaah Solar PV Independent Power Producer (IPP) project is the country's first large-scale solar power plant and is set to significantly reduce its environmental footprint. This expansion is a key part of Qatar's wider strategy to reach 5 GW of solar power by 2035, as outlined in its DOHA, Sept. Under the new project, a new solar power plant, with a production capacity of 2,000. Qatar has officially started building one of its biggest solar energy projects to date. This bold step is part of the country's ongoing effort to shift toward cleaner and greener energy. Doha, September 16 (QNA) - QatarEnergy signed an agreement with Samsung C&T's Engineering & Construction Group (Samsung C&T) for the construction of a world-scale solar power plant in Dukhan, about 80 kilometers west of Doha.
