

PEES Power Systems

Dominican Energy Storage Power Station Intermediary Agent

Overview

Highjoule offers a wide range of energy storage solutions including C&I energy storage systems, base station storage, home energy storage, and more. They provide customized products and support for global partners, especially in the Dominican market, promoting renewable energy growth. CNE has outlined the policies and plans for electricity. The call, by the Unified Council of Distribution Companies (CUED), will be the first in the nation to require projects to include batteries with storage capacity of at least four hours. The process, to be decided in May 2026, could be expanded in future rounds given the sustainable development. The Dominican Republic has been, and will continue to be, a regional leader in attracting foreign investment involved in permitting.

Dominican Energy Storage Power Station Intermediary Agent

PUSUNG-R (Fit for 19 inch cabinet)

LAC DOMINICAN REPUBLIC

We have prioritised securing technical and capacity-building support to ensure a just energy transition and facilitate investment in the new infrastructure and policies necessary for achieving long-term ...

Mapping the Energy Sector: Where Can Global Operators Invest?

The Dominican energy map offers diverse opportunities depending on each operator's expertise. In the short term, the expansion of solar parks in the Cibao region and wind projects in ...

ENERGY STORAGE SYSTEM

Product Model

HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions

1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity

215KWH/115KWH

Battery Cooling Method

Air Cooled/Liquid Cooled

Dominican, Worldwide

Your path to success in Dominican starts with Highjoule. At Highjoule, we are committed to supporting our agents in Dominican with reliable energy storage solutions that promote success and sustainability.

Dominican Republic tenders up to 600 MW solar, wind with mandatory storage

The call, by the Unified Council of Distribution Companies (CUED), will be the first in the nation to require projects to include batteries with at least four hours' storage capacity. The aim is to ...

Lead acid battery storage project financing options in Dominican ...

This paper presents an economic assessment of the integration of battery energy storage systems for providing frequency regulation reserves in island power systems that are undergoing a transition to a ...

Dominican Energy Storage Battery Solutions: Get Your Custom ...

We specialize in large-scale energy storage systems, mobile power stations, distributed generation, microgrids, containerized energy storage, photovoltaic projects, photovoltaic products, solar industry ...

Dominican Republic sees

renewable surge as nearly 3 GW bid for ...

The tender, coordinated by the state-owned electricity distribution companies (Empresas Distribuidoras de Electricidad, EDES), will award 600 MW through long-term power supply contracts, ...

Dominican Republic

The call, by the Unified Council of Distribution Companies (CUED), will be the first in the nation to require projects to include batteries with at least ...

Dominican Republic

Spanish renewable energy developer Ecoener has received approval from the Dominican Republic government to build the 60MWp Payita 2 solar PV project in Nagua, which will include a ...
