Electric vehicle adoption cameroon

Overview

Cameroon's first foray into electric vehicles occurred during the 2021 Africa Cup of Nations. In 2022, three electric cars were introduced, along with three charging stations strategically placed at the Presidential Boulevard in Yaoundé and the Grand Mall in Douala. This is part of a broader national effort towards reducing emissions, modernizing the country's ageing vehicle. Cameroon is rolling out eight new regulations in 2025 to boost electric vehicle (EV) adoption and reduce reliance on older gas-powered cars. These changes aim to lower costs for EV buyers and importers while discouraging the import of high-emission vehicles. The Ministry expressed hope that the United.
