

## **PEES Power Systems**

**Energy storage cabinets are  
cheap and large**

## Overview

---

Household energy storage cabinet prices aren't one-size-fits-all. Think of them like smartphones: basic models get the job done, but premium features cost extra. Here's what drives the price tag: Capacity, Baby! A 5kWh system might cost ¥10,000, while a 60kWh beast hits ¥69,000. Discover the perfect blend of style and functionality with our energy storage cabinets. Look for units housed in robust casings, often metallic, which provide excellent protection for the sensitive components within. Energy storage cabinet costs generally range from \$200 to \$800 per watt, depending on various factors including technology, brand, and capacity. High-capacity systems with advanced features may command prices on the higher end. We have extensive manufacturing experience covering services such as battery enclosures, grid energy storage systems, server cabinets and other sheet metal enclosure OEM services.
