

PEES Power Systems

Georgia Grid Energy Storage Project

**FLEXIBLE SETTING OF
MULTIPLE WORKING MODES**

Overview

The Mossy Branch Battery Facility is capable of 65 megawatts (MW) of battery storage that can be deployed back to the grid over a four-hour period, adding resiliency to the state's power grid and helping ensure reliable energy for a growing Georgia. Georgia Power leaders joined elected officials from the Georgia Public Service Commission (PSC), Georgia legislature, and Talbot and Muscogee counties on Thursday to mark commercial operation of the company's first “grid-connected” battery energy storage system (BESS).

Georgia Grid Energy Storage Project

Georgia Scales Up Battery Storage to Support Energy Grid

Battery energy storage is taking center stage in Georgia's utility planning, as Georgia Power moves forward with more than 765 megawatts of new storage capacity across Bibb, Lowndes, ...

Construction now underway on 765 MW of new battery energy storage

Georgia Power announced today that construction is underway on 765-megawatts (MW) of new battery energy storage systems (BESS) strategically located across Georgia in Bibb, ...

Georgia Power commences construction of 200MW BESS

Georgia Power has initiated the construction of a 200MW (megawatt) battery energy storage system (BESS) in Twiggs County, southeast of Macon in the US state. The project, ...

Georgia Power Begins Construction on 200 MW Battery Storage Project ...

The Twiggs BESS, owned by Georgia Power, is being built next to the existing Twiggs County Solar facility. Designed to deliver stored power over a four-hour period, the 200 MW storage ...

Georgia Power begins construction of newest battery storage system ...

Georgia Power is also seeking bids for an additional 500 MW of Energy Storage Systems (ESS) with a storage discharge duration of a minimum of two-hours.

Georgia Power's first battery energy storage system reaches ...

...

Georgia Power leaders joined elected officials from the Georgia Public Service Commission (PSC), Georgia legislature, and Talbot and Muscogee counties on Thursday to mark ...

Construction underway on 765 MW of new battery energy storage ...

Georgia Power and its EPC firms have started construction on 765 MW of new battery energy storage projects across the state.

Peach State power play: Georgia's blueprint for grid- scale energy storage

Georgia is on track to deploy more than 1GW/4GWh of utility-scale storage by 2027, outpacing every other Southeastern state. Driven by economic growth and evolving grid ...

Macon, Georgia is getting a Georgia Power battery ...

Georgia Power is building 765 MW of battery storage in four Georgia counties, boosting grid reliability and increasing renewable energy.

Georgia Power Begins Construction on 765 MW of Battery Storage to ...

Georgia Power has commenced

construction on 765 megawatts (MW) of new battery energy storage systems (BESS) across four counties in Georgia, aiming to significantly enhance grid ...
