

PEES Power Systems

Highway network cabinets with AC DC integration

Overview

As MSOs move out into smaller, cabinet arrangements that support a mix of active (power, battery and nodes) and passive equipment (fiber terminations and splitters), modular enclosures allow for mix-and-match compartments to fit site requirements. By handling all system integration details, including: If you have a System Integration need [click here](#) and let us know how we can help. Right sized for your application, 5-42 RU cabinet. Constructed to provide superior protection in all environments, ABS cabinet solutions offer maximum flexibility for customizable turn-key options that future proof growing networks.
