

## PEES Power Systems

# Hometown Solar Power Plant

## Overview

---

Complete list of operational and planned power plants by Hometown Bio Energy LLC. Track interconnection queue requests across US ISOs and utilities, with daily data updates. 1 Projects • 8 MW Total Capacity • 1 State Looking for projects still in development?

EIA 860M shows operational plants and those starting operation within one year. Energy. Hometown BioEnergy (HTBE) is an important component of MMPA's commitment towards local, sustainable energy production. The 8 MW biomass facility, located in the MMPA member community of Le Sueur, provides dispatchable, on-peak renewable energy to the Agency. Hometown BioEnergy completed its first. Hometown Bio Energy LLC is ranked #2,444 out of 4,872 utilities nationwide in terms of total annual net electricity generation, and they are ranked #25 out of 106 utilities in terms of total annual net electricity generation from other renewables. We see tremendous opportunities to redefine the term “waste” and believe bioenergy can help utilities, large waste producers, food processors, and communities to create value from waste streams and reduce. The Agency's portfolio of renewable resources supports meeting the Minnesota Renewable Energy Standard (RES) and customer demand for renewable energy. MMPA's renewable energy portfolio includes wind energy from the. As an example of a green, prosperous future, energy company Swift Current Energy (SCE) is building Pennsylvania's largest solar farm— Mineral Basin Solar Project —on land near where a massive coal plant once lived.
