# Hong Kong composite photovoltaic bracket

## Overview

---

Hong Kong-based startup Xilia Group has launched a composite solar module frame that reportedly reduces weight by around 25% and lowers upfront costs by up to 30% compared with conventional aluminum frames. These can further be building-integrated photovoltaic (BIPV) systems. What is a building-integrated photovoltaic (BIPV) system?

These can further be divided into ordinary. CHEC GOLD Engineering offers customization and construction of outdoor and indoor large-scale stainless steel frames, solar mounting brackets, stainless steel canopy frames, and stainless steel platform frames.
