# How big an outdoor power source does Qatar need

## Overview

---

With temperatures exceeding 40°C and major projects like the 2022 FIFA World Cup stadiums, Qatar's emergency outdoor power supply requirements are unique. Manufacturers must consider: "Our mobile power units supported 18 stadium cooling systems during World Cup. From contractors needing portable worksite energy to event planners powering temporary stages, the right milliamps (mA) capacity makes all the difference. But what makes Qatar . Summary: Qatar's growing infrastructure and harsh climate drive demand for reliable emergency outdoor power solutions. This strategy aims to increase large-scale renewable power generation to about 4 GW through the installation of distributed solar generation, up to around 200.
