# How much does a small solar air conditioner cost

## Overview

---

On average, a small solar air conditioner for a single room can range from \$500 to \$1,500. For larger solar air conditioners that can cool multiple rooms or an entire house, the cost can increase to several thousand dollars depending on the size of the unit and the number of. The price of solar air conditioners in the U. depends on a variety of factors that influence both the upfront cost and long-term value. A 6,000 watt system costs about \$15,000 to \$18,000 for panels, battery, inverter and wiring. That size system would power most homes, not just the AC. Get quotes from up to 3 pros!
