

## PEES Power Systems

# How much does it cost to install solar panels in rural areas in a year

## Overview

---

This usually costs \$150 to \$300 a year, depending on the size of the system and where you live. The only other big expense you may have is the cost of replacement batteries every 10 to 15 years. In the end, your wallet will almost certainly see more sunshine than shade. Minus tax credits, a typical \$20,000 residential solar power system costs about \$14,000. You'll need to have a professional to clean and inspect them. The upfront cost of installing a solar PV system on a farm can be substantial, typically ranging from £800 to £1,500 per kilowatt of installed capacity.
