# How much does solar power generation cost at a farm

## Overview

---

The average solar farm cost ranges from \$600,000 to \$1,300,000, with most projects averaging \$950,000. Main cost factors include size, equipment, labor, and location. The numbers reveal why investors and companies increasingly view solar farms as attractive opportunities. Utility-scale solar costs have declined dramatically to \$0.23 per watt in 2025, less than half the \$2. Solar farms are large ground-mounted solar installations that occupy vast areas of open land and provide clean energy generated by the sun. Here's a detailed breakdown: | Metric | Cost | |-----|-----| | Per Watt | \$0.
