Lithium batteries in the news

Lithium batteries in the news

Days numbered for 'risky' lithium-ion batteries, scientists say, after

An innovative approach to battery materials could bring sodium-ion energy density and charging speeds far closer to those of lithium-ion, scientists say.

Batteries News -

Read the latest research on everything from new longer life batteries and batteries with viruses to a nano-size battery.

Unforeseen triumphs in batteries and the road ahead

Battery technology has advanced at extraordinary speed over the past decade, yet meeting the world's accelerating electrification needs will require both continued evolution of lithium ...

LAFD lobbies city leaders for regulations as lithium-ion battery fires rise

As lithium-ion batteries power more of our everyday tools, the Los Angeles Fire Department warns the batteries are also supercharging more fires.

Batteries Daily

BatteriesDaily delivers comprehensive updates and analytical perspectives on the latest developments in the field of Li-ion Batteries, tailored to assist in informing strategic decisions and maintaining a ...

Lithium-batteries

All the latest science news on lithium-batteries from Phys . Find the latest news, advancements, and breakthroughs.

Batteries News

Batteries News is your source of news and market intelligence on the Li-ion batteries industry. Discover trends stay ahead of the curve.

Lithium-Ion Batteries Latest news & Tech Article

Read the latest news and expert articles on Lithium-Ion Batteries, brought to you by the editors of The Battery Magazine - The Battery Magazine

Lithium gains momentum in 2025 , Kitco News

Lithium-ion batteries are becoming increasingly vital for use in rapidly growing data centers. They have a longer lifespan, higher energy density and faster recharge and discharge ...
