Lithium battery pack export

Overview

The 5 biggest exporters of lithium batteries are mainland China, United States of America, Singapore, Germany and Indonesia. All told, those 5 major suppliers generated over half (52. Volza's Big Data technology analyzes over 3.5 billion verified shipment records across 203 countries to help exporters and importers identify new Lithium Ion Battery Pack buyers and suppliers, discover profitable markets, and connect with reliable trade partners worldwide. 51% increase from 2023, when trade totaled \$3. Over the past five years, trade in this category has grown at an annualized rate of 5. Among the 5380 products traded in 2024, Lithium Batteries ranked 993 in global trade. China's new export restrictions on lithium battery materials and technologies have prompted global manufacturers to reassess sourcing strategies, while Indian firms frame the move as both a disruption and an opening for diversification.

Lithium battery pack export

Lithium Ion Batteries Exports 2024

Countries Garnering Largest Trade Surpluses from Lithium Ion Batteries
Countries Facing Worst Trade Deficits from Lithium Ion Batteries
Lithium Ion Batteries Exporting Companies

The following countries posted the highest positive net exports for lithium ion batteries during 2023. Investopedia defines net exports as the value of a country's total exports minus the value of its total imports. Thus, the statistics below present the surplus between the value of each country's exported lithium ion batteries ...See more on worldstopexports

Find the latest data on new markets for the exports and imports of Lithium Batteries.

BNEF: Li-ion battery prices fall despite rising metal prices

Battery metal prices increased in 2025, in part due to supply risks at certain Chinese lithium assets and new cobalt export quotas in the Democratic Republic of Congo. However, metal ...

China imposes new export controls on lithium ion battery technology

The controls cover three major categories: high-performance lithium-ion batteries, cathode materials and precursors, and graphite-based anode materials. Specifically, exports of ...

Global Lithium-Ion Battery Prices Hit Record Low at \$108/kWh

Lithium-ion battery pack prices fell to a record \$108/kWh in 2025, fueled by LFP adoption and global competition.

China dominates global trade of battery minerals

In this article, we consider trade of three key minerals needed for batteries--graphite, lithium, and cobalt--among China and key global regions. These minerals are mined or extracted ...

ESS

Overview of Lithium Ion Battery Exports by Country

In 2022, global lithium ion battery exports reached a total value of \$3.26 billion. Thanks to their high energy density, minimal memory effect, and low self-discharge rate, lithium ion

Lithium Ion Battery Pack Exports from United States

With Volza's verified Lithium Ion Battery Pack Export Data, you can compare port

performance, shipment frequency, and country-wise routing to choose the best export gateways for your Lithium ...

How Can an Industrial Lithium Battery Manufacturer with Global Export

How do I choose the right industrial lithium battery manufacturer for global projects? Look for a partner with proven export experience, ISO-certified production, and the ability to support region-specific ...
