

PEES Power Systems

Long-term after-sales service for outdoor telecom cabinets

Overview

Our door fans are easy to install, built for long-term operation, and ensure optimal airflow inside cabinets that house heat-sensitive electrical equipment. Every Bison ProFab telecom cabinet, regardless of adaptations, is built to meet or exceed NEMA standards. The result: reliable performance in long term service. All this plus a competitive unit cost and rapid turnaround helps make Bison ProFab a telecommunications professional's first call for. Your outdoor telecom cabinet must withstand harsh conditions like extreme temperatures, moisture, and UV radiation. High-quality materials, such as galvanized steel or aluminum, ensure durability and protection. Since 1989, we've manufactured outdoor telecom cabinets in America's Heartland, providing telecommunications companies. A Telecommunication Enclosure is a protective cabinet designed to house and organize sensitive telecom equipment in outdoor or indoor environments. These enclosures are critical for keeping cables, switches, routers, and power supplies secure, weather-resistant, and accessible for maintenance. With proven expertise in system integration, Westell also manages the details for design assistance, planning, thermal management. Purcell Systems' solutions specifically address operators and service providers' needs for durable equipment enclosures, modular cabinets, advanced surge protection technology, optimal battery backup enclosures, superior power management, and complete climate control cabinets, for equipment.
