

PEES Power Systems

Manufacturer of 20-foot solar-powered shipping containers for railway stations

Overview

Cool-Watt® is a solar power plant designed as a 20 feet maritime container, pre-cabled and pre-tested so that it can be deployed in less than 1 hour without civil engineering or specialists. RPS supplies the shipping container, solar, inverter, GEL or LiFePo battery bank, panel mounting, fully framed windows, insulation, door, exterior + interior paint, flooring, overhead lighting, mini-split + more customizations! RPS can customize the Barebones and Move-In Ready options to any design. The core objective was to reimagine a standard shipping container as a self-contained energy hub, equipped with advanced solar integration, high-capacity batteries, and intelligent power management systems. This container includes the conversion and batteries and is equipped with an insulated and air-conditioned. We make mobile solar containers easy to transport, install and use. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever. Learn more about the product and inquire below. They have. Interport has worked with various power generation and energy customers to deliver unique solutions whether storing generators or providing a unit to recharge batteries.

Manufacturer of 20-foot solar-powered shipping containers for rail

Off-Grid Solar Containers , Energy Independence Delivered

Off-Grid Solar Containers transforms 20-foot shipping containers into complete, turnkey electricity generators--engineered for the places where conventional infrastructure can't reach, and built for ...

Cool-Watt® solar container

Cool-Watt® is a solar power plant designed as a 20 feet maritime container, pre-cabled and pre-tested so that it can be deployed in less than 1 hour without civil engineering or specialists.

Solarcontainer: The mobile solar system

We make mobile solar containers easy to transport, install and use. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever.

Shipping Containers for Power Generation & Energy Storage

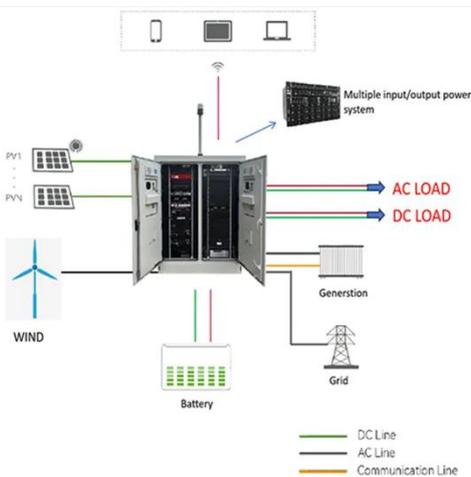

Interport's shipping containers can be fully customized with a wide variety of modification options, depending on your power generation source and battery storage needs.

Standard 20ft containers

Standard 40ft containers

Solar Options

We are proud to partner with one of the leading providers of factory installed solar options for shipping containers. Learn more about the product and inquire below.

Solar Power Solutions for 20ft Shipping Containers

Replace diesel generators with renewable energy such as solar and to solve the problem of high and unreliable conventional energy generators. Cost Savings: Simple mobile office container

...

20 ft Shipping Container Office Solar Off Grid Or Grid

This container can be run solely off batteries or you can just plug it in.

Without the batteries it's self-sufficient with the sun up if you don't have it plugged in.

The LunaVault: Transform a 20-ft shipping container into a high

This ambitious endeavor transforms a standard 20-foot shipping container into a high-capacity, modular, and off-grid power system capable of supporting diverse energy needs.

Instant Off-Grid(TM) Shipping Containers with Solar and Batteries and AC+

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Mobile Solar Container Portable PV Power Stations

Introducing our cutting-edge solution for sustainable energy production: the Mobile Solar Container Portable PV Power Stations. Available in both 20ft and 40ft variants, these innovative containers are ...
