

PEES Power Systems

Modern energy storage device in the Middle East

Outdoor Cabinet BESS
50 kWh/500 kWh Battery Storage System
Industrial and Commercial Energy Storage

Energy Storage System

Energy Storage System

-  **All In One**
Integrating battery packs
-  **Intelligent Integration**
integrated photovoltaic storage cabinet
-  **High-capacity**
50-500kWh
-  **Rated AC Power**
50-100kW
-  **Degree of Protection**
IP54
-  **Altitude**
3000m(>3000m derating)
-  **Operating Temperature Range**
-20~60°C(Derating above 50 °C)

Overview

This report explores the key dynamics shaping the battery market across the region: from the rise of lithium-ion and solid-state technologies to growing applications in energy storage, electric mobility, and industrial resilience. In the Middle East, storage will provide increased flexibility between supply and demand. By storing surplus power and dispensing it when needed, storage. In March 2025, GSL ENERGY successfully installed four 120kWh high-voltage rack battery energy storage systems in the Middle East, a total of 480kWh of energy storage capacity. This project responds to the Middle East's growing demand for clean, reliable, and sustainable energy. But what does the next phase look like?

DNV has forecast that the MENA region will add 860GW of new. In this article, Saqib Saeed, Chief Product Officer at PTR Inc., and Siddiqa Batool, Analyst at PTR Inc., analyze the crucial role of energy storage in shaping the Middle East's power sector.

Modern energy storage device in the Middle East

Middle East and Africa Energy Storage Outlook 2025

'The Middle East and Africa (MEA) Energy Storage Outlook' analyses key market drivers, barriers, and policies shaping energy storage adoption across grid-scale and distributed segments.

Middle East and Africa Energy Storage Devices Market Growth

The Middle East and Africa (MEA) energy storage devices market is positioned for sustained long-term growth driven by escalating renewable energy integration, expanding power ...

Commercial and Industrial ESS

Air Cooling / Liquid Cooling

- Budget Friendly Solution
- Renewable Energy Integration
- Modular Design for Flexible Expansion

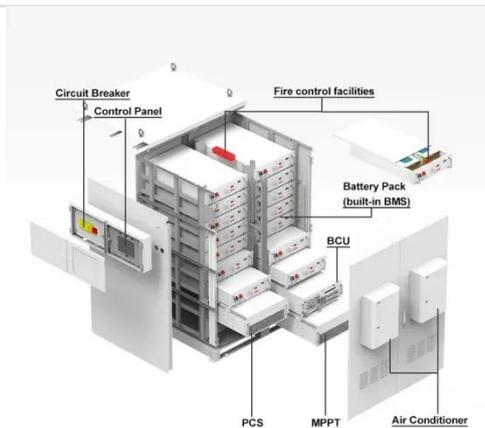

The Future of Battery Market in the Middle East & Africa

Whether you're targeting utility-scale BESS, EV integration, or C& I storage solutions, the Middle East Energy 2026 platform and this guide are designed to help you capitalise on one of the world's most ...

Battery Storage in the Middle East: Powering the Energy Shift

As the Middle East intensifies its shift to renewable energy, battery storage is becoming a vital part of its infrastructure. Countries like Saudi Arabia and the United Arab Emirates are investing ...

GSL ENERGY 480kWh high-voltage rack battery energy storage ...

GSL ENERGY provides innovative energy storage solutions to help businesses and households in the Middle East achieve energy self-sufficiency and contribute to the global clean ...

Powering the Future: Energy Storage Solutions in the Middle East

From Jordan's solar farms to Egypt's wind energy projects, energy storage is the linchpin ensuring that these renewable sources can deliver consistent and reliable power.

Middle East Archives

Two major Middle East and North Africa

(MENA) region projects combining solar PV and battery storage have progressed in Saudi Arabia and Egypt through ACWA Power and Scatec, ...

A Strategic Pillar for the Middle East's Energy Security and ...

In this piece, we explore: Where the Middle East stands in its clean energy transition, how energy storage supports renewable integration and economic diversification, and how policies and ...

Energy Storage: A Strategic Pillar for the Middle East's Energy

Ultimately, the article positions energy storage as a pillar of the Middle East's energy future essential not only for technical resilience but also for driving economic growth and sustainability.

The case for utility-scale storage in the Middle East

In a recent chat with pv magazine, Yasser Zaidan, senior sales manager for the Middle East at JinkoSolar, described the trajectory of the large-scale storage business in the main markets of

LIQUID COOLING ENERGY STORAGE SYSTEM

EMS real-time monitoring
No container design
flexible site layout

Cycle Life **≥ 8000** Nominal Energy **200kwh** IP Grade **IP55**
