

PEES Power Systems

New solar power generation map

New solar power generation map

Interactive Map of U.S. Power Plants

This map displays information on location, fuel type, electric generation, generating capacity, ownership, and emissions for over 10,000 power plants across the country.

Solar Resource Maps and Data , Geospatial Data Science , NLR

Find and download solar resource map images and geospatial data for the United States and the Americas. For more information on NLR's solar resource data development, see the National Solar ...

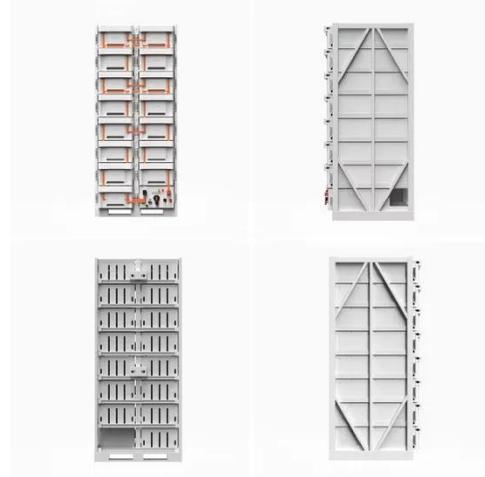

Solar power generation, 2025

Electricity generation from solar, measured in terawatt-hours.

Renewable Energy Maps and Tools

This interactive map examines the viability of three solar technologies in the United States with a high-level annualized economic calculation, with and without potential savings from available renewable ...

Planned Solar Projects in the United States

Here is a map of all utility-scale planned solar projects in United States. Hover over a planned solar project to view information on each project like their name, capacity and construction date.

Viewer , USPVDB

The U.S. Solar Photovoltaic Database (USPVDB) provides the locations and array boundaries of U.S. front-of-the-meter, photovoltaic facilities, direct current capacity of 1 megawatt or more, that became ...

Global Solar Atlas

Welcome to the Global Solar Atlas. Start exploring solar potential by clicking on the map. Select sites, draw rectangles or polygons by clicking the respective map

controls. Calculate energy production for ...

Global Energy and Renewables Map

The map combines three open energy datasets and allows visitors to explore global power plants and U.S. solar and wind energy projects using text search and map visualization tools.

OEM service

Hot Colors:

Color can be customized
more questions just do not hesitate to contact us

LOGO Position: (Screen printing)

Major Solar Projects List

See the locations of the major solar systems identified by this research on our interactive map.

Global Solar Power Tracker

The utility-scale data covers all operating solar farm phases with capacities of 1 megawatt (MW) or more and all announced, pre-construction,

construction, and shelved projects with capacities greater than ...
