**Not suitable for installing
photovoltaic panels**

Overview

Solar panels work best with shingles, as they are the most popular and easiest type of roof to which a solar panel can be attached. What roofs are not suitable for solar panels?

If you're considering switching to solar energy to lower your electricity bills and reduce your carbon footprint, it's important to know whether your roof is a good fit. Not every roof is ideal for solar panel installation - certain materials, angles. Do you want to install solar panels on the roof of your home and want to know What Types Of Roofs Are Not Suitable For Solar Panel Installation?

It's a great way to save on electricity bills. Not all tops can be equally compatible with solar panels. Know your home's limits before you invest—solar isn't always the sunny solution.

Not suitable for installing photovoltaic panels
