Nouakchott backup power

Overview

Meet the Nouakchott Pumped Storage Power Station – Mauritania's answer to energy storage challenges. Think of it as a giant water-powered battery that uses two reservoirs at different elevations to store and release energy on demand. The plant, equipped with four 18 MW generators being built in Germany and vital electrical systems like transformers and cables. Nouakchott has endured lengthy power interruptions for several weeks, highlighting the financial and technical limits of the Mauritanian Electricity Company as Mauritania aims to widen access and green its mix by 2030. Long power cuts have paralysed Nouakchott since late June, forcing businesses. Electricity shortage. The project also includes the installation of 150 kilometers. Mauritania will soon begin construction of a 220-megawatt hybrid power plant in Nouakchott under a public-private partnership, the Ministry of Energy announced on Wednesday.
