Octopus tariff for solar panels

Overview

Intelligent Octopus Flux (IOF) is a smart variable tariff designed for homes with solar panels and compatible batteries. It automatically optimises your battery's charge and discharge cycles, ensuring you save money and maximise your returns without the need for manual scheduling. Generate your own renewable energy Works with all solar and battery systems 100% renewable import & export How does it work?

Octopus Flux is an import and export. With energy prices on the rise, more UK homeowners are turning to solar panels, battery storage, and electric vehicles (EVs) to cut costs and reduce their carbon footprint. But to unlock the full savings potential, it's vital to pick the right energy tariff. Best for: those with energy storage who are willing to be on the ball with when you can import and export your energy.
