

PEES Power Systems

Off-grid battery cabinets for islands in Indonesia

Overview

The cost of generating power from diesel in these remote areas can range from \$0.30 per kWh, creating a strong economic incentive for more affordable, stable alternatives. Even in urban areas like Jakarta, Surabaya, and Bali, the grid can be unreliable, with rising energy costs and growing demand. In this context, solar energy combined with Battery Energy Storage System (BESS) is becoming a reliable and sustainable solution. GSL ENERGY, as a specialized BESS. Using an off-grid solar panel system is the most cost-efficient solution to generate your power needs when your property has no option to connect to the PLN grid in Indonesia. We ensure seamless integration of all BESS & PCS components with the existing infrastructure Integration of Battery Energy Storage. Highly integrated All-in-one containerized design complete with LFP battery, bi-directional PCS, isolation transformer, fire suppression, air conditioner and BMS; Modular designs can be stacked and combined. The system's capacity is up to.
