Photovoltaic panel assembly factory on the mountain

Overview

Heliene officially cut the ribbon on its new solar module assemble facility in Rogers, Minnesota. The 500-MW site has been operational since April 29. Our just-in-time-supply solution and in-house logistics team ensure you get the solar modules you need, precisely when and where you want them, without incurring warehousing costs or change order issues. The Canadian solar panel maker is expanding Minnesota Line One, an original manufacturing and assembly line at its Mountain Iron factory.

Photovoltaic panel assembly factory on the mountain

Solar panel maker Heliene doubles size of Iron Range facility, creating
