Photovoltaic support push rod manufacturer

Overview

We are committed to researching, developing and applying high quality, precision transmission equipment products, who provides reliable mechanical actuator for horizontal single axis, dual-axis photovoltaic tracking system, CSP, CPV solar tracking design. Mokun Renewable is a solar tracker manufacturer, consolidating R&D, engineering, manufacturing, distribution, on-site support, and customer service. Besides, we can also unite our partners to provide owners with EPC services for PV projects. Our manufacturing base covers 9,000 square meters in. Electric actuator is an electric drive device that transforms the rotational motion of an electric motor into the linear reciprocating motion of an actuator. It summarizes the technical point description of the patent document.
