# Price list for photovoltaic panel removal

## Overview

The average cost to remove solar panels in the U. A typical home solar installation has 15-30 panels, which explains why most removal projects fall into that $4,000-$8,000 range. But here's where it gets interesting – many contractors impose minimum fees. Even if you only need one damaged panel removed, you might face a $3,000 minimum charge. Per-panel removal costs range from $200 to $500, making system size one of the most. The average cost to remove solar panels from a roof in 2025 typically ranges between $300 and $750 per panel, depending on factors like system size, roof complexity, and local labor rates. However, as with any investment, circumstances can change.
