# Price list of photovoltaic panel water tanks

## Overview

---

Water tanks for solar heating systems cost between \$800 and \$2,800. They're available as single- or double-walled units, and some have a heat exchanger and/or an auxiliary heater backup. A solar water heater costs \$3,000 to \$9,000 installed, depending on the system and tank size, type, and location. Higher-end models and components could cost up to \$12,000. Unlike traditional water heaters, solar water heaters utilize solar collectors on your rooftop to transform sunlight into solar energy, which is then used to heat the water in your. Solar water heaters—sometimes called solar domestic hot water systems—can be a cost-effective way to generate hot water for your home. They can be used in any climate, and the fuel they use—sunshine—is free.
