

## PEES Power Systems

# Professional solar power generation company

### BASIC APPLICATION

Storage systems have been proven to be "extremely lucrative" for commercial and industrial (C&I) filed.

## Overview

---

This list highlights 25 significant photovoltaic power station construction companies, primarily headquartered in Europe and Asia. While many were founded in the last two decades, they vary significantly in size, with teams ranging from a handful to several thousand employees. Shanghai JINSUN New Energy Technology Co. is a renowned and highly respected manufacturer and agent of new energy equipment in China. We specialize in wind power generation systems, photovoltaic power generation systems, wind-solar hybrid power generation systems, battery energy storage. Shanghai Electric Power Generation Engineering Company is one of the core businesses of Shanghai Electric Group, a large equipment manufacturing conglomerate in China. Targeting global markets, we are engaged in EPC, O&M, life time extension, full life cycle service engineering technical services. SOLV Energy delivers the large-scale solar and battery storage projects that keep these industries powered — on time and at massive scale. These companies chose their primary service as “EPC” when applying to the list, and they may also work as developers, installers, electrical subcontractors, installation. Sunplus New Energy Technology is located in Shanghai, China, committed to the R&D, Production, and Sales of new energy power supply equipments.
