RAV4 solar container outdoor power modification

Overview

Yes, you can use the Redarc 200 watt solar panel with your RV that is pre-wired for solar, but you would not be able to use just the Solar Panel # RED86VR. Last month, I mounted a 100w Renogy rigid solar panel to my OEM cross bars on my 2020 RAV4. Using the BougeRV crab mounts, it's been working pretty well. I just use it to charge up my smaller power stations (EcoFlow river 3 plus, Anker Solix C300 DC) during the day. I did have to drill holes in the. The Toyota RAV4 Prime has made waves in the world of eco-conscious adventure seekers with its hybrid capabilities and energy-efficient design. With a vehicle as versatile as this, why not take it a step further and use it to transform your camping experience?
