Recruiting apprentices to install photovoltaic panels

Overview

SEIA developed this page as resource for solar employers looking to explore, develop, or participate in registered apprenticeship programs. Registered Apprenticeship Programs (RAPs) are paid jobs that prepare workers for careers while meeting the needs of businesses for a highly skilled workforce. GSS Solar Installer and Electrical Apprentice works with our solar electric installation team in both residential and commercial settings to install roof. Willingness to learn solar installation practices (mechanical and/or electrical).

1 As the industry prepares for a period. Recognizing this growing need, the U. Department of Labor (DOL) has officially approved national guidelines for Registered Apprenticeship programs in the solar industry, developed by the Interstate Renewable Energy Council (IREC) and the Solar Energy Industries Association (SEIA)., electrical and maintenance) to fill the skills gap. Having these skilled craftsmen on an employer's workforce adds stability and. The newly approved Guidelines align Department of Labor-approved occupations with the needs of solar employers and provide a template that companies, educational institutions, associations, and labor unions can use to create high-quality apprenticeship programs.
