

PEES Power Systems

Reykjavik tesla powerwall

System Topology

Overview

Powerwall 3 is a fully integrated solar and battery system, designed to accelerate the transition to sustainable energy. Customers can receive whole home backup, cost savings, and energy independence by producing and consuming their own energy while participating in grid services. One of the most popular home battery options is the Tesla Powerwall, a sleek lithium-ion battery that holds 13.5 kilowatt-hours (kWh) of energy. At \$1,140 per kWh of storage, the Powerwall is one of the most. Before he took on his latest role as chief agitator, the CEO's vision was one of a society that was free from the shackles of fossil fuels, one that could charge a vehicle from home and reduce its reliance on the grid by harnessing the power of the sun. Find and contact your nearest Tesla Certified Installer to set up your Tesla products below.
