

## PEES Power Systems

# Roof-mounted photovoltaic bracket specifications

## Overview

---

Below is a brief summary of the technical specifications of the IronRidge Ballasted Roof Mount platform. More detail will be provided in the following pages. Professional Installation is Critical for Safety and Warranties: Solar panel mounting involves working at dangerous heights with structural modifications that can void warranties if done incorrectly. Professional installation typically includes 5-25 year warranties and ensures compliance with 2025. IronRidge provides a comprehensive platform for designing a wide variety of photovoltaic systems for ballasted roof mounting applications. Due to its modular architecture, it can handle nearly all commercially available PV modules and layout designs. The POWER RAIL mounting system is designed with the professional PV solar installer in mind. Built on decades of Japanese innovation, every product we design is engineered to stand up to the harshest conditions - from heavy snow loads to torrential rains, hurricanes and even typhoons. Our industry-leading AlphaSeal®.
