

## PEES Power Systems

# Rooftop solar power generation approval

## Overview

---

Permitting and inspection are required before a solar array is allowed to produce electricity on the grid. Generally, local governments require solar installers to obtain a permit for rooftop panels before they can be installed. To help set project expectations, prepare for your installation and maximize long-term. Solar Costs Have Reached Historic Lows: Average residential solar costs have dropped to \$3.30 per watt in 2025, representing a 60% decrease from 2010 levels.
