Solar anti-slip glass

Solar anti-slip glass

Solar PV flooring for residential, commercial use

Turkey-based Ankara Solar Energy launched its own brand of walkable PV flooring for residential and commercial projects. Its 30 W and 120 W square panels with anti-slip glass front ...

Anti slip glass

Our new kind of anti slip glass, which is processed by acid etching, the portions of the glass are removed to varying depths by a controlled process, which give the glass the slip resistance to walk on.

PV Floor's Walkable Panels Put Solar Underfoot In Both Residential

Turkey's largest solar manufacturer, Ankara Solar, recently came out with a line of walkable solar panels, which have a durable non-slip glass surface, that can be installed in floors and

Types of Slip-Resistant Glass , Jockimo

What Is Anti-Slip Glass, Aka Slip-Resistant Glass? 4 Available Anti-Slip Glass Options Any Questions About Antislip Glass? Antislip glass (sometimes referred to as "slip-resistant" glass) is glass that has been treated or processed to provide more friction when walked on. This helps prevent slipping, tripping, or falling, especially when wet. Techniques range from fusing small pieces of glass aggregate to the glass floor in a kiln to baking o...
