Solar-first inverter

Overview

The CPS 200kW-480V, 250kW-600V, 275kW-800V, and 350kW-800V inverters are equipped with PID mitigation functions that allow simple, compatible solutions for systems with First Solar PV modules. With thousands of SMA inverters connected to First Solar modules, First Solar and SMA have partnered on some of the largest projects in the world, including the largest in North America. SMA and First Solar bring that wealth of experience and success to the distributed generation market with the. First Solar, known for its advanced thin film PV modules, recommends its customers to use PID mitigation solutions in ungrounded PV systems to mitigate the potential risk and ensure long-term performance of PV assets. Does First Solar's module design and form factor require specialized mounting and racking?

First Solar Series 6 modules are compatible with 50+ of the. Because the inverter is the brain of your solar system, and it's also, historically, the device that has the highest probability of failure, which can leave you in the dark (literally and figuratively). We'll dig into what each one offers, who it's perfect for, and where it shines (or stumbles). GoodWe's C&I grid-tied inverters are designed to deliver high efficiency and reliability.
