Solar panel silicon wafer quotation and price

Overview

The average price range for solar silicon wafers typically varies between \$30 and \$50 per square meter. This price can fluctuate based on several factors, including the purity of silicon, the production method, and the overall market conditions at a given time. This week, polysilicon makers have continued discussions on InfoLink's polysilicon price quotes exclude additional costs from special specifications or. Polysilicon quotations from major producers have fallen below RMB 55/kg, while market rumors suggest prices from some smaller polysilicon producers have even touched RMB 45/kg. Under the dual pressure of oversupply and falling downstream prices, polysilicon transaction benchmarks continue to face. Here is the latest silicon price information for your reference. Definition of PV Grade: Polysilicon chunk with high purity can be used directly to produce Solar PV.
