

## PEES Power Systems

# Tesla Photovoltaic Energy Storage Industry Chain

## Overview

---

Tesla remained the top global integrator of battery energy storage systems (BESS) in 2024, said a report from Wood Mackenzie. However, its China-based competitor Sungrow narrowed the gap, increasing from 10% market share in 2023 to 14% in 2024, just one percentage point behind. Energy storage linked to solar power is expanding fast, challenging supply chains and putting pressure on global manufacturers from China to the US. The rise of solar-plus-storage is no longer just a technical trend—it's now a major supply chain story. China has invested over USD 50 billion in new PV supply capacity – ten times more than Europe – and created more than 300 000 manufacturing jobs across the solar PV. Solar photovoltaic (PV) and wind have constituted the majority of new global power capacity for several years according to the United Nations 2025 Energy Transition Report. “Despite this, renewable energy is not replacing fossil fuels in energy systems at the pace and scale needed,” the report.

### Global ESS shipments hit 286 GWh as Tesla and Chinese ...

Global energy storage shipments jumped 84.7% in the first three quarters of 2025, with Tesla and Chinese manufacturers leading the charge, says InfoLink.

## Tesla & BYD: Why are EV Manufacturers Making Solar Storage?

Alongside EV batteries, the company produces large-scale, stationary energy storage systems designed to support renewable energy integration, power grid stability, power transmission ...

## Executive summary - Solar PV Global Supply Chains

Solar PV Global Supply Chains - Analysis and key findings. A report by the International Energy Agency.

## Global Energy Storage Surges as Tesla and Chinese Titans Set the ...

Global energy storage system (ESS) shipments soared to a record 286 GWh in 2025, with industry heavyweights like Tesla and leading Chinese manufacturers such as BYD and CATL ...

## Tesla's Fastest-Growing Business Isn't Cars Anymore--Or

Tesla's Fastest-Growing Business Isn't

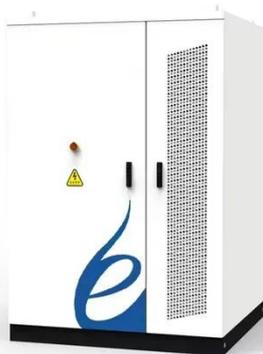

Cars Anymore--Or Even Robots The company's car business may be struggling, but its energy storage division shows no signs of slowing down.
