The photovoltaic solar panels collapsed the house

Voltage range:691.2-947.2V

>6000 cycles(100%DOD)

Rated battery capacity:
216KWH (customizable)

EMS communication:
4G/CAN/RS485

Overview

A New York City homeowner went solar to cut down the cost of electricity, but instead, the retiree tells us he's lost several thousand dollars. Though solar represented just 3.4% of the nation's electricity generation in 2022, studies show that rooftop solar could eventually meet residential electricity demand in many states if deployed widely, freeing American homes from dependency on fossil fuels. To help speed adoption, the Inflation. US residential solar is on a downturn and it may soon get worse. From pv magazine USA The US residential solar industry may now be on the brink. In a shock for the industry, the latest draft of the "One Big Beautiful Bill Act" excludes residential solar lease providers from the Investment Tax Credit. Faced by macroeconomic challenges and shifting sands of state.
